

An excellent opportunity for experienced Bench Joiners, Wood Machinist & Polishers to join an expanding company based in Basildon area.

The Company:

They are a fast dynamic growing company and currently expanding. The company design and manufacture some of the highest quality stairs in the UK to bespoke design.

Now looking for the right individuals to join their friendly team. The job will present opportunities to learn complex joinery methods and unique designs, as well as the chance to work both in the workshop and on site as and opportunities to run own jobs, seeing the project through from start to finish and accept further responsibilities with suitable remuneration.

Work will involve:

- **Staircases:** Manufacture of the highest quality bespoke staircases of all types in particular curved staircases to provided drawings, templates and design information (training can be provided to quick learners to pick up these skills). We are looking for joiners who can deliver a high-quality finish, and preferably with a technical mindset, able to solve problems during manufacture and installation.
- **Handrails:** Production of curved and wreathed handrails from supplied templates, including cutting and squaring wreaths and shaping / carving to profile.

Candidate Requirements:

The company is looking for medium to highly skilled bench joiners, wood machinist and polishers with preferable experience in staircase joinery, but other joinery skills with high quality finish such as carving and cabinet making have also proven to be successful backgrounds.

Putting high importance on workers, who are trustworthy, reliable, professional and hard-working and who are looking to be rewarded for the results of their efforts.

Work may also involve the installation of handrails and staircases on site, desirable to have a driving licence and CSCS card

Opportunities for full time, employed, self-employed as preferred, with somewhat flexible hours. Workshop and Office based in Basildon, Essex. Rate of pay £15-£25 per hour subject to experience.

If you feel that you have the relevant skills/attributes to fulfil this role then please apply now!
